PennDOT Virtual Innovation Week - November 2-6

PennDOT is hosting the first-of-its-kind [Virtual Innovation Week](#) for federal, state and local government transportation representatives from across Pennsylvania. Join us for this transportation innovation sharing event to learn about and discuss innovative solutions being implemented at the state and local levels.

Choose from 10 different **FREE** virtual presentation sessions over five days, featuring primarily PennDOT and local government speakers, focusing on innovative topics including:

- ***Pavement & Bridge Preservation***
- ***Technology & Digital Project Delivery***
- ***Innovative Maintenance Techniques, Tools & Materials***
- ***Innovative Design Approaches***
- ***Multimodal Planning***
- ***Traffic & Safety Planning/Management***

View the [complete schedule](#) and visit the [event website](#) for more information. Each session will include a facilitated question/answer period following each presentation. Register before **October 23, 2020** to reserve your seat!
