Overview:

The Infrastructure Investment and Jobs Act (IIJA) includes billions of dollars in competitive funding available to cities, towns, and municipalities across dozens of new and existing programs. As local governments begin to rebuild and reinvest in their communities, there are federal resources to support local leaders as they combine funding streams, organize around their priorities, and build local support for long overdue infrastructure projects. States are coordinating funds through their Drinking Water and Clean Water State Revolving Funds programs. This workshop will provide an overview of the IIJA as it can support water, share current jurisdiction plans for the resource and offer local government examples for funding. The goal is to address questions, learn of jurisdiction plans and consider funding projects that address long standing water infrastructure needs.
