

Wandering Waterways Bus Tour

The Pennsylvania Municipal League will be collaborating with the Local Government Leadership Workgroup ([LGLW](#)) and the Local Government Advisory Committee ([LGAC](#)) to host a bus tour at the 2026 Municipal Leadership Summit in Hershey, Pennsylvania on Wednesday, October 7th, 2026, from 9:30am to 12:00pm.

This tour is designed for local elected and appointed officials, as well as senior staff and will focus on projects and resources in the Chesapeake Bay Watershed. It will facilitate knowledge-sharing between local leaders, inspire policy and project ideas to help meet community goals, and promote collaborative approaches to addressing common environmental issues that so many communities face. Local leaders will walk away with actionable insights on funding models and collaborative planning strategies to meet the environmental challenges their communities face. Tour stops will include Susquehanna Township and Derry Township.

Registration for the tour will become available shortly, and we encourage those in the Chesapeake Bay Watershed to attend this interactive, network building tour! To see if you live in the Watershed, please click here - [cbp_297301.pdf](#)

To those outside of the watershed, you are still able to attend!
